

## THE DEVIL IS IN THE DETAILS

### Did you know the Big Ugly Bill:

- Effectively Defunds Planned Parenthood clinics by prohibiting any health clinic that provides abortion care (even if that care is paid for privately) from accepting Medicaid funds *for any OTHER reproductive care service* they provide including breast cancer screening and birth control.
  - Gives a tax break to purchasers of gun silencers.
  - Provides a \$100 million slush fund to WH Office of Management and Budget “for the purposes of finding budget and accounting efficiencies in the executive branch.” The administration *has refused to spend* Congressionally appropriated funds for high-speed Internet; affordable housing; upgraded roads and bridges; life-saving research at the National Institutes of Health and \$7 billion in federal funding for after-school and summer programs that serve about 1.4 million students. Rather than spending the \$100 million on these programs, this bill gives the money to OMB to find more ways to cut funding for vital programs.
  - Allows wealthy venture capitalists to claim \$10 million in income tax-free for investing in certain startup companies, costing taxpayers \$17 billion.
  - Directs the National Endowment for the Humanities to spend \$40million on a “Garden of Heros” statue garden; and Trump gets to choose the heroes.
- 

**DID YOU KNOW:** DHS has budgeted and begun spending as much as \$200million of YOUR tax dollars on anti-immigrant ads?

**Wouldn't ALL this money be better spent on OUR healthcare, education, and programs that actually help people and communities thrive?**
